The subject you wish to write about. In order to explain this phenomenon Einstein has invented the quantum "hambler".

My theory of gravitation explains this phenomenon perfectly.

We read a great deal about the ~~cosmic rays~~ matter being changed into force and force being changed into matter by the cosmic rays. This is absurd. It is the same as saying that the body can be changed into the mind, and the mind into the body. We know that the mind is a functioning of the body, and in the same manner force is a function of matter. Without a body there can be no mind, without matter there can be no force.

Einstein has for years developed formulas explaining the mechanism of the cosmos. In doing this he overlooked an important factor, namely the fact, namely, that some of the heavenly bodies are increasing in distance from the sun. This is the same as writing for a business letter and forgetting
